1. Submit your list of devices
   Go to https://phobio.com/smb/apple_business and download the Trade Template. Enter in your company information and the serial numbers or IMEs of the devices for trade in. Follow the instructions provided in the worksheet indicating the condition of each device so we can assess its value. Then upload the completed worksheet or email it to businesstrades@phobio.com.

2. Receive your quote for confirmation
   Your dedicated Phobio Account Specialist will send your trade quote within 1 business day. Confirm this quote within 5 days in order to lock in your offer. Your Phobio Account Specialist will work with you to answer any questions you may have.

3. Receive supplies and ship your devices
   In 3-5 business days, you’ll receive shipping supplies for prepaid shipment of the devices to our inspection facility. Once shipped, tracking information will be provided.

4. Receive payment for your trades via ACH or eCheck
   When received at our inspection facility, all devices are erased and inspected to confirm their quoted value. Once all trade values have been confirmed, payment will be sent to your company’s bank account via ACH or eCheck (only available in the USA) to your contact email address (7-10 business days).

   For ACH bank transfer, we will require your Bank Name, Bank Account Number, Bank Routing Number, Company Name, and an image (photo or scan) of a voided company check to verify the account.

   If there are any changes in value from the original quote due to incorrect claim of model or condition, we will contact you and give you 7 days to accept the change or request that the corrected devices be sent back to you free of charge. For security reasons, all returned devices will have data erased before shipping, and their unique serial numbers/IMEIs may not be submitted again for trade through this program.

   If you do not accept or reject the new quote within 7 days, we’ll assume the revised quote has been accepted and will process your payment. No returns will be available.

   How eChecks work
   You will receive an encrypted email with a link back to a one-time view/print PDF which you’ll simply open and print, then deposit as you would any other check. With eChecks, banking information is never shared and there are no set up fees. Funds are available for immediate deposit into your company’s bank account.
